

The Great Golden Gourd Hunt at Pigeon Roost Farm

Every Halloween the wicked witch makes a special brew,
She tried to keep her magic secret, but our clever farmer knew!
The brew turned gourds from brown into a golden hue...
We hid ten gourds from the witch, but left some clues for YOU!

The first golden gourd is up very high
The animals here can almost touch the sky!
Their fur is mostly white and they have a bleating cry
The pupil runs side to side in each golden eye.

Corn grows fast in the sun sun sun
Doing a maze is fun fun fun!
Don't get lost, run run run---
Get to the end and you're done, done, done.

If you give a maple water, each year it grows a bit
But there's a tree on the farm that does nothing but sit.
Covered in orange with red, white & blue on it
Smaller than the barn, but can't fit it in your pocket!

The next gourd is hidden in the cool shade
If you dare to enter this enchanted glade
Walk past the serpent with scales of jade
You'll see a topsy turvy house that we made.

There's a stable down below for a donkey or a cow
Also plenty of space to store a tractor & a plow.
Up above you see rafters in the hay mow,
Look around the area where we have costumes now.

Walk across the Fun Center, look for friends that hop,
Their population increase just doesn't stop!
Their hutches are shaded til the leaves all drop
Do you spy something shiny up at the top?

Here on the farm there's lots of birds to see,
Geese, ducks, chickens, maybe even a tom turkey!
If you've got to lay an egg this is the place to be,
Finding golden gourds is as easy as 1-2-3!

There's a slide down the back and tunnel in the middle
Look for a building on the hill to solve this short riddle.

If you find this little house and look within,
There are the smells of lavender and jasmine
Great things to clean and smooth your skin
A witch that is a buckeye fan will make you grin!

Round and round in circles, are you dizzy yet?
Don't spin too fast or your wheel will upset.
Running like a rodent can work up a sweat.
But you should be hunting golden gourds, don't forget!
